

Transparent PPE screen Solution

SPECTACLE tm

Transparent work pods

Spectacle Transparent Pods tm

The 'Spectacle' tm screen system is designed to help protect your staff.

Creating effective team and co working clear glazed work pod, that allow for face to face interaction, whilst helping reduce the risk of droplet infection.

The system works with clients existing free standing or bench desks to reduce reconfiguration of existing layouts.

Standard size is to suit 1600mm wide desks.

Also available to suit desk widths of 1200mm, 1400mm, 1800mm and 2000mm.

Side barrier screen length can also be increased to 800mm in length if required.

Standard length 400mm projecting, retro fit side barrier screen.

Specification & Features

Each unit comes pre-prepared for quick installation. The system can be specified as a desk top divider solution, with or without retro fit side barrier protection screens.

Side barrier screens to left and right of each pod respectively are 400mm deep to fly past desk edge and further increase barrier side to side protection. Can also be increased to 800mm deep if required.

Height adjustable feet allow cables to pass below the screens at floor level .
