

Overview

Viso Partitions range of acoustic glass doors is the culmination of cutting-edge design, impressive performance and clean line aesthetics. The sleek profiles maximise the glazing area, complementing and enhancing the appeal of fully glazed partition systems, whilst achieving excellent acoustic performance of up to 45dB (Rw).

Framed acoustic glass doors offer superior acoustic performance, are stronger and achieving a longer service life with reduced risk of damage. A wide range of ironmongery is available, including pull handles and lever/latch & lock.

Frame Colours

Profile standard powder coat colours

- RAL 9005 Black
- RAL 7016 Anthracite
- RAL 9006 Silver
- RAL 9010 White

Also available in any RAL or BS colour to meet your project's design aesthetics or customer corporate colours.
